Acupuncture Informed Consent to Treat

I hereby request and consent to the performance of acupuncture treatments and other procedures within the scope of the practice of acupuncture on me (or on the patient named below, for whom I am legally responsible) by Kate Frame L.Ac. (Licensed Acupuncturist) and/or other licensed acupuncturists who now or in the future treat me while employed by, working or associated with or serving as back-up for the acupuncturist named above, including those working at the clinic or office listed below or any other office or clinic, whether signatories to this form or not.

I understand that the acupuncturist cannot treat me for a given condition beyond 60 calendar days from the date of first treatment, unless I obtain an examination and diagnosis from a physician, dentist, or podiatrist for that condition. I understand methods of treatment include, but are not limited to, acupuncture, moxibustion, cupping, gua sha, electric stimulation, Tui-Na (Chinese massage), and nutritional counseling.

Acupuncture attempts to normalize physiological functions, to modify the perception of pain and to treat certain diseases of dysfunction of the body. I have been informed that acupuncture is a generally safe method of treatment, but occasionally there may be some side effects, including bruising, dizziness, fainting, or numbness or tingling near the needle sites that may last a few days. Bruising is a common side effect of cupping. There have been rare and unusual risks of acupuncture including nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although this office uses sterile disposable needles and maintains a clean and safe environment. Burns and/or scarring are a potential risk of moxibustion, cupping, and the use of the heat lamp and can be refused at any time. I understand while this document describes the major risks of treatment, other side effects and risks may occur.

I do not expect the staff to explain and anticipate all possible risks and complications of treatments. I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the clinical staff to exercise judgment during the course of treatment which the clinical staff thinks at the time, based upon the facts then known is in my best interest. I understand that results are not guaranteed and that I can stop treatments at any time. I understand the clinical and administrative staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent. I will notify the practitioner immediately of unpleasant or unanticipated side effects associated with treatment.

By voluntarily signing below, I show that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition for any future condition for which I seek treatment.
